The Himalayan passive margin from Precambrian to Cretaceous times M.E. Brookfield	1
Pebbly mudstones in the Cretaceous Pigeon Point Formation, western California: a study in the transitional stages from submarine slumps to cohesive debris flows O.R. López-Gamundí	37
Hydrocarbon inclusions in late calcite cements: migration indicators in the Great Oolite Group, Weald Basin, S. England B.W. Sellwood, M. Wilkes and B. James	51
Holocene coastal depositional sequences on a tectonically active setting: southeastern Tauranga Harbour, New Zealand R.A. Davis, Jr. and T.R. Healy	57
Gold nugget growth during tectonically induced sedimentary recycling, Otago, New Zealand J.H. Youngson and D. Craw	71
Facies and sedimentary environment of the Permian carbonates (Khuff Formation) in the United Arab Emirates A.S. Alsharhan	89
Proterozoic braided ephemeral fluvial deposits: an example from the Dhandraul Sandstone Formation of the Kaimur Group, Son Valley, central India A. Bhattacharyya and S. Morad	101
Differential compaction in lithified deep-sea sediments is not evidence for "diagenetic unmixing" T.D. Herbert	115
Lakes Onoke and Wairarapa as modern analogues for the Hautotara and Te Muna Formations (Mid-Pleistocene), southern Wairarapa, New Zealand K.J. Woolfe	123
Backwash-and-swash-oriented current crescents: indicators of beach slope, current direction and environment A. Bhattacharya	139
Facies patterns and stratal geometries: clues to the nature of the platform margin during the Paleocene, northeast Sirte Basin, Libya M.H. Mresah	149
A new report on the occurrence of zeolitites in the abyssal depths of the Central Indian Basin S.D. Iyer and M. Sudhakar	169
Laterally and vertically accreted tidal deposits in the Upper Proterozoic Madina-Kouta Basin, southeastern Senegal, West Africa M. Deynoux, P. Düringer, R. Khatib and M. Villeneuve	179
Mineral particles from Asia found in volcanic loess on the island of Hawaii J.E. Begét, M. Keskinen and K. Severin	189
The internal structure of vegetated coastal sand dunes, Sable Island, Nova Scotia M.-L. Byrne and S.B. McCann	199
Morphodynamics of the stagnating Zwin inlet, The Netherlands D. Bowman	219
<i>Discussion</i>	
A revised classification of limestones—discussion G.M. Friedman	241
A revised classification of limestones—reply V.P. Wright	243
